PROJECTS

Link Tube (06/2023 - 10/2023)
- Link Tube's user interface will be intuitive and accessible, catering to the diverse needs of students across different educational levels and areas of interest. The website will provide essential features such as search filters, user ratings, and personalized playlists, fostering a sense of community-driven learning.

Online Pre-Ordering System for Canteen (01/2024 - 05/2024)
- This project was designed with the student and canteen staff community in mind. By providing a user-friendly and efficient online pre-ordering system, we strive to create a win-win situation, where students experience reduced waiting times, and canteen staff benefit from optimized operations and resource management.
